MEMORANDUM TO THE FILE

FROM:  James M. Maddock  
Deputy General Counsel

SUBJECT: FINDINGS OF THE DEPARTMENT OF JUSTICE OFFICE OF THE  
INSPECTOR GENERAL REGARDING FORENSIC WORK PERFORMED  
BY TERRY RUDOLPH

The purpose of this memorandum is to commemorate, in all relevant case files, certain findings made by the Department of Justice Office of the Inspector General (OIG) regarding forensic work performed by former Special Agent Terry Rudolph. The OIG's findings were issued in connection with a broader investigation of three units in the FBI Laboratory: the Explosives Unit, the Materials Analysis Unit, and the Chemistry-Toxicology Unit.

The OIG reviewed Rudolph's work in the Psinakis case, as well as several other matters. Based on that review, the OIG criticized Rudolph strongly, and reached the following conclusions:

- Rudolph failed to conduct appropriate scientific analyses or to adequately document his work in a substantial number of cases;
- Rudolph did not perform his work as an examiner in a manner that would withstand peer review or judicial scrutiny; and
- Rudolph's "lack of competence" was not isolated to one case.

Based on these findings, the OIG specifically recommended that a notation regarding its findings with respect to Rudolph be placed in each case file in which Rudolph was the principal or auxiliary examiner. If the forensic work performed by Rudolph in this case is used in any way in the future, both the OIG's findings and Rudolph's forensic analysis should be reviewed. In addition, legal advice should be obtained as to the FBI's disclosure obligations.

Title: FINDINGS OF THE OFFICE OF THE INSPECTOR  
GENERAL (OIG) DEPARTMENT OF JUSTICE,  
CRITICAL OF FORENSIC WORK PERFORMED  
BY CERTAIN LAB EXAMINERS

Synopsis: To place this document on record in the Task Force control file and to place a copy on the top serial in every investigative file containing forensic work performed by any of the thirteen Laboratory Examiners whose scientific work was criticized by the OIG.

Reference: 66F-HQ-A1211968 Serial 82

Details: BE ADVISED, one or more of the Laboratory Examiners who performed scientific analysis in this investigation was criticized in the OIG's report issued on April 15, 1997. The OIG conducted a thorough review of allegations of wrongdoing and improper practices within certain sections of the FBI Laboratory. It issued a report which, among other findings, was critical of the scientific work performed by thirteen individual examiners assigned to the Lab. The allegations and criticisms concerning these individuals varies greatly and in some instances is case specific.

If the forensic work contained in this file is used in any way in the future, both the OIG's findings and the forensic analysis of the examiners should be reviewed. In addition, legal advice should be obtained as to the FBI's disclosure obligations.

The criticized examiners are, in alphabetical order:  
(1) Richard Hahn, (2) Robert Heckman, (3) Wallace Higgins,

3. Numerous lengths of blue, yellow, orange, and brown wires with black 3/4" vinyl electrician's tape adhering to the ends of the wires with free ends cut by the technicians who disarmed the actual device, in addition, the package contains small pieces of aluminum foil and white plastic material.

4. One electric blasting cap marked explosive approximately 2 1/2" in length, silver in color, with blue and light green leg wires. (this will be shipped according to Bureau instructions via UPS under separate cover)

5. One envelope containing one piece of black tape and one Linden travel alarm clock approximately 2 1/4" x 2 1/4" covered with black 3/4" vinyl electrician's tape with hole in crystal at the three o'clock position, one wire protruding into hole, another wire attached to back of travel alarm with solder.

6. One envelope containing small sample of material taken out of package, appears to be gelatin type dynamite. (this material will be shipped by UPS according to Bureau instructions under separate cover)

ITEMS RECOVERED FROM CRIME SCENE AT THE CLUB  
CONTINENTAL, 5515 NORTH LINCOLN AVENUE, CHICAGO, ILLINOIS,  
ON 1/5/80.

7. Envelope containing an Eveready alkaline nine volt battery with a short gray piece of wire soldered to the terminal, one length of yellow insulated wire appearing to be blasting cap leg wire, various parts of it appears to be a travel alarm clock of unknown manufacturer, two lengths of green insulated wire and one length of gray insulated wire.

8. Envelope containing fragments of clothing worn by Vincent Leone (deceased) victim of explosion at Club Continental.

9. Large plastic bag containing remaining items of clothing including a pair of boots worn by victim, Vincent Leone, recovered from his body at the Swedish Covenant Hospital by Chicago Police Department.

For information of the Bureau the above described items were recovered from one attempted bombing which occurred at 10:02 p.m., on 1/4/80, at the parking lot of the Golden Show Restaurant, Chicago, Illinois, and a device that had functioned at Club Continental Restaurant, 5515 North Avenue, on 1/5/80, which functioned at 11:58 a.m. These components that are being submitted compare to similar items which had previously submitted under the following Chicago file entitled CROMUR, Chicago file number 9-7073, in addition, under New York's case entitled Free Bomb and New York case, New York file number 174-2946, entitled Unsub aka Croatian Freedom Fighters bombing at 3205 Broadway Queens, New York, 12/4/79. As of this date there are no known suspects in the captioned matter; however, due to the similarities of these items to prior Croatian bombings it is recommended that any evidence submitted by New York, Chicago, or any offices that are investigating Croatian bombings be compared to the evidence being submitted under the captioned matter.

REQUEST TO FBIHQ

Laboratory

Explosives Unit

1. Determine type of tool used on appropriate items submitted and if practical compare with other tool marks on material submitted in previous CROMUR matters.

2. Compare all items submitted with prior items submitted under the CROMUR investigation.

Instrumental Analysis Unit

1. Examine explosive sample submitted and the end wrapping off of the cartridge submitted to attempt to determine the composition of the material and the manufacturer of the material.

Microscopic Analysis Unit

1. Determine if any hairs or fibers on tape and if positive compare with any other CROMUR material previously submitted.

2. Compare all submitted items with items previously submitted in the CROMUR investigation.

Metallurgy Unit

1. Attempt to identify watch parts submitted in destroyed device and furnish Chicago with any lead information regarding the same.

2. Compare all submitted items with items previously submitted in the CROMUR investigation.

Engineering Section

1. Examine clock that failed to function to determine if continuity would have made device function as planned.

2. Identify manufacturer of blasting cap enclosed and attempt to render safe. Provide any lead information concerning manufacturer of cap to Chicago.

Identification Division

(Latent Fingerprint Section)

1. Process all items submitted for identifiable fingerprints.

2. Compare prints lifted with other prints from items previously submitted in CROMUR matters.

Return items to Chicago upon completion of examinations.

Photograph all submitted evidence and provide one set of five by seven color prints to Chicago, New York, and Los Angeles Offices and provide New York and Los Angeles with a copy of lab reports of above submitted items.

ON 1/5/80 [REDACTED] CHICAGO P.D. BOMB AND ARSON SQUAD ADVISED  
THAT AT 10:02 P.M. ON 1/4/80, TWO MEN PASSING BY A PARKING LOT USED BY  
PATRONS OF THE GOLDEN SHELL RESURANT, FOUND A PACKAGE LYING IN  
THE PARKWAY. WHEN THEY PICKED THE PACKAGE UP THEY NOTICED WIRES AND A  
CLOCK PROTRUDING, SUSPECTING THAT IT MIGHT BE A BOMB, THEY DROPPED  
THE PACKAGE AND WENT FOR HELP.

PAGE TWO UNCLAS 174- NEW

THE CHICAGO P.D. BOMB AND ARSON SQUAD RESPONDED TO THE SCENE AND OPENED THE PACKAGE, THEY FOUND IT WAS A LIVE BOMB AND PROCEEDED TO RENDER THE DEVICE SAFE. THE DEVICE WAS WRAPPED WITH A WHITE PLASTIC BAG AND ALUMINUM FOIL SECURED BY BLACK ELECTRICAL TAPE. A CLOCK AND SOME WIRES WERE VISIBLE FROM THE OUTSIDE OF THE BAG. THE CLOCK IS A LINDEN TRAVEL ALARM CLOCK WITH A WIRE INSERTED THROUGH THE FACE OF THE CLOCK AT THE 3:00 POSITION. THE MINUTE HAND HAD BEEN REMOVED AND THE HOUR HAND WAS BETWEEN THE TWO AND THREE O'CLOCK POSITION. THE PACKAGE CONTAINED AN EVEREADY NINE VOLT ALKALINE BATTERY WIRED, WITH DISORDERED CONNECTIONS, TO THE CLOCK AND TO AN ELECTRIC BLASTING CAP. THE BLASTING CAP HAD YELLOW AND LIGHT BLUE LEG WIRES WITH DUAL CRIMPS AND APPEARS TO BE A DELAY CAP MANUFACTURED BY CANADIAN LIMITED.

THE DYNAMITE HAD BEEN REMOVED FROM ITS WRAPPERS HOWEVER IT APPEARED TO BE EIGHT INCH BY TWO INCH IN DIAMETER CARTRIDGES OF A GELITAN TYPE WITH A TOTAL WEIGHT OF THREE POUNDS. ULTRA VIOLET EXAMINATION FAILED TO LOCATE TAGGANTS.

A NEIGHBORHOOD INVESTIGATION WAS CONDUCTED BY THE CHICAGO P.D. AND ALL LICENSE NUMBERS OF THE VEHICLES REMAINING AT THE PARKING LOT, WERE OBTAINED AND ARE BEING SEARCHED THROUGH THE SECRETARY OF STATE OFFICE IN SPRINGFIELD ILL., TO DETERMINE OWNERSHIP.

PAGE THREE UNCLAS 174-NEW

NO SPECIFIC VICTIM HAS BEEN DETERMINED AT THIS TIME HOWEVER OFFICER [ ] STATED THAT THE GOLDEN SHELL RESURANT IS PATRONIZED LARGELY BY ETHNIC YUGOSLAVIANS AND IS LOCATED IN A LARGELY CROATION NIEGHBORHOOD.

ALTHOUGH NO CLAIM FOR THE DEVICE WAS MADE BY CHICAGO AREA CROATIONS OR SERBIAN GROUPS THE SIMILATRITY OF THE DEVICES COMPONENTS TO OTHER ANTI YUGOSLAVIAN BOMBS INDICATE THAT THE INVESTIGATION OF THIS ATTIMPTED BOMBING FALL WITH UNDER FBI JURISDICTION, THEREFORE TH E EVIDENCE RECOVERED HAS BEEN OBTAINED FROM THE CHICAGO P.D. AND WILL BE FORWARDED TO THE FBI LAB.

AT 4:45 P.M. OFFICER [ ] ADVISED THAT AT 11:58-.A.M. ON 1/5/80 A BOMB HAD EXPLODED AT THE CLUB CONTINETAL. INVESTIGATION DETERMINED THAT VINCENT D. LEONE, M/W DOB, 5/3/15, HOME ADDRESS 6314 N. FAIRFIELD CHICAGO , EMPLOYEE OF THE CITY STREETS AND SANITATION DEPT., HAD DRIVEN HIS VAN IN THE ALLEY BEHIND THE CONTINENTAL CLUB AT 5511 N. LINCOLN AVE. CHICAGO P.D. THEORIZE THAT HE PARKED THE VAN NEAR SOME TRASH CANS AT THE REAR OF THE RESTURANT AND WHILE HE WAS SEARCHING THROUGHT THE TRASH CANS HE MUST HAVE FOUND THE BOMB. INVESTIGATION DETERMINED THAT HE MUST OF SET THE DEVICE ON A BOX TO LOOK AT IT CLOSER WHEN THE BOMB EXPLODED CIRITICALLY INJURING HIM. MR. LEONE SUSTAINED MASSIVE INJURIES TO HIS LEGS, CHEST, AND HEAD. THE VAN WAS BLOWN BACK 25 TO 30 FEET FROM ITS ORIGINAL PARKING PLACE. ONLY SLIGHT DAMAGE WAS SUSTAINED TO THE BLDG. AND SURROUNDING ATEA. MR. LEONE WAS TAKEN TO THE SWEEDISH COVENENT HOSPITAL WHERE HE DIED AT 7:25 P.M. ON 1/6/80 NEVER REGAINING CONSCIOUSNESS.

PAGE FOUR UNCLAS 174-NEW

THE CRIME SCENE EXAMINATION INDICATED THAT THE DEVICE CONSISTED OF A LARGE AMOUNT OF DYNAMITE POSSIBLY SIMILAR TO THE AMOUNT RECOVERED IN THE EARLIER DEVICE. IN ADDITION A PORTION OF A NINE VOLT EVEREADY ALKALINE BATTERY WITH A SIMILAR SODDERING TECHNIQUE AND IDENTICAL LEG WIRE INDICATES THE DEVICES WERE PROBABLY CONSTRUCTED BY THE SAME PERSON.

b6  
b7C

ACCORDING TO OFFICER [ ] THE CLUB CONTINENTAL IS A POPULAR NORTH SIDE YUGOSLAV RESTURANT WHERE A LARGE ETHNIC GATHERING HAD TAKEN PLACE THE PREVIOUS EVENING.

CHICAGO FBI IS CONDUCTING AN INVESTIGATION OF BOTH OF INCIDENTS BASED ON THE EVIDENCE RECOVERED BEING SIMILAR TO PREVIOUS ANTI YUGOSLAV BOMBINGS, AND BECAUSE THE TARGETS IN THESE INSTANCES WERE CHOSEN BECAUSE OF THEIR LARGEILY YUGOSLAVIAN PATRONAGE.

All evidence recovered has been submitted under separate cover for appropriate examination.

No communiques have been received and no individual or organization has claimed credit for these bombings. Preliminary opinion of Chicago FBI bomb personnel, after examination of evidence and discussion with other offices who have experienced recent bombings, indicates that these two bombs may have been prepared by a Croatian separatist group(s).

Subsequent to the immediate crime scene investigation, Chicago has attempted to determine the recent activities of known Croatian militants, with particular emphasis on the violence-prone Croatian emigre organization, the Croatian National Resistance (HNO), presently being extensively investigated under CROMUR (BUfile 9-63997)(CG 9-7073).

Chicago has targeted [ ] and [ ] against the HNO organization and members regarding their possible complicity in these bombings. No positive information has been received to date from these sources. (S) 4

Title: UNKNOWN SUBJECT(S); ATTEMPTED BOMBING AT  
THE PARKING LOT OF THE GOLDEN SHELL RESTAURANT  
AT 10052 SOUTH AVENUE N AT 10:02 PM ON JANUARY 4,  
1980, AT CHICAGO, ILLINOIS; BOMBING OF THE CLUB  
CONTINENTAL AT 5515 NORTH LINCOLN AT 11:58 AM ON  
JANUARY 5, 1980, AT CHICAGO, ILLINOIS

Character: EXPLOSIVE AND INCENDIARY DEVICES

Synopsis: At approximately 10:02 PM on 1/4/80, an undetonated bomb was discovered by a pedestrian in a parking lot used by the Golden Shell Restaurant, Chicago, Illinois. At approximately 11:58 AM on 1/5/80 a bomb exploded behind the Club Continental, Chicago, killing Vincent D. Leone. At the time of the explosion, Leone was on duty with the Chicago Department of Streets and Sanitation and was in close proximity to the bomb. No individual or group claimed responsibility for the bombings. Investigation resulted in recovery of a considerable amount of evidence. Interview of logical witnesses at both sites failed to positively identify any suspect(s).

(Items in Inv#685783 Destroyed for Safety Purpose).

INVESTIGATION:

On 4 Jan 80, 2215 hrs, the undersigned Explosive Technicians were assigned by the 3rd Watch Commander to the report of a bomb at 10052 S. Avenue N, Beat 436 requesting. R/O arrived on scene at 2235 hrs.

Beat 436, reported in summary, that at approximately 2200 hrs. they were approached by two citizens, now known as, [redacted] M/W and [redacted] M/W. The citizens informed the officers that they had picked up a package in a vacant lot (that is used by the general public as a parking lot) at 10052 S. Avenue N. After discovering that the package had a clock and [redacted] carried the package approximately 15 feet to the nearby CONRAIL right of way and placed the package immediately  
(CONTINUED ON PAGE 3).

INVESTIGATION (Continued):

adjacent to the right of way at approximately 10052 S. Avenue N. They immediately sought assistance and encountered Beat 436 in front of 10051 S. Avenue N. The officers investigated the package and identified it as a possible explosive device. The officers notified the Communications, requesting assistance and then secured the area, pending the arrival of Explosive Technicians.

Preliminary examination revealed that the package appeared to be a (approximate) 2" x 4" x 8" package wrapped with a white plastic material and black electrical tape with protruding electrical wire and a clock visibly connected to the package with electrical wiring. The clock was functioning and improvised electrical contact was noted at the three o'clock position, with the lone hand at the approximate two o'clock position.

Implementing Render Safe Procedures, the package was dismantled and examination revealed that the package was an apparent improvised explosive device consisting of one mechanical alarm clock marked "LINDEN" with 2 1/4 x 2 1/4 face (square); one 9 volt battery marked EVEREADY ALKALINE; miscellaneous electrical wires (yellow, blue, orange/black, brown/white); two cartridges of dynamite (wrappers removed); and one electrical blasting cap with yellow and blue leg wires. The device was wrapped with a separate (inner) layer of aluminum foil and outer layer of a white plastic material and taped together with black electrical tape.

The described items were then recovered and inventoried at the Bomb & Arson Unit. A sample of the dynamite, along with the non-explosive components of the device were hand carried to the Criminalistics Division for further analysis. The recovered dynamite and electrical blasting cap will be destroyed for safety purposes, after photographs were taken by E.T.3931 (Baikie#3623) of all the components.

At this time the investigation is being conducted by B/A [redacted] and further reference should be made to reports submitted by beat and investigative personnel.

Investigation Continued:

The undersigned along with Sgt. [ ]  
[ ] proceeded to this scene & encountered the Bomb Technicians  
[ ] who related that the explosive device which  
had been found by the witnesses had been rendered safe by them. b6 b7C

At this time the undersigned interviewed the witnesses [ ] &  
[ ] who related that they were walking at the location whose  
address would be 10052 S. Ave. "W" when they discovered a package lying  
on the ground in an open space which could best be described as a park-  
way & when they picked the package up they saw the clock & the wires  
protruding from same & immediately sensed danger & therefore threw this  
package to the west & it landed approx. next to the Conrail right of  
way where it was found by the beat officers who were subsequently summoned  
to the scene by these witnesses & in turn turned over to the bomb techs.  
These men could supply the undersigned no further info relative to this  
incident.

The undersigned along w/Sgt. [ ] & other B & A investigators  
began a methodical search of this area in the chance another device  
could be found but to no avail. b6 b7C

B & A personnel next began a house to house interview of the  
neighbors in the immediate area & those interviewed are named above  
& none of these persons neither saw nor heard anything of an unusual  
nature, or could supply the undersigned w/any reason why an incident  
of this nature should occur in their area.

Continued on Page # 5

b6  
b7C

This area near where the explosive device was found is sometimes used as a parking facility for the patrons of a tavern named the GOLDEN Shell Restaurant which is located at 10063 S. Ave. "N". According to the beat officers [redacted] of the 4th district who were the 1st summoned to this scene, many autos were parked in the general area of this device; they in turn copied down the license #'s of these autos which were present at their arrival & a check of these license #'s by the undersigned via the police dept's. hot desk per clerk #111 revealed the names & addresses of 5 of the 8 autos present--see attached sheet with registration of autos---The undersigned at this time were unable to locate or interview these persons.

The undersigned requests a follow-up investigation be conducted by 2nd watch personnel of this command to facilitate this investigation

This investigation is continuing.

## INVESTIGATION (continued):

The R/Ts determined that a Vincent LEONE suffered serious injury occurring in an explosion in the alley at that location. The R/Ts examination of the scene also determined that this explosion damaged LEONE'S vehicle and slightly damaged the rear wall of the building housing the CLUB CONTINENTAL LOUNGE as well as causing extensive window damage to other buildings in the area. Fragments of clothing were adhering to the rear wall approximately 5' from the Northeast corner of this building. Pitting of the brick surface also occurred in this area approximately 2' from the alley surface indicating the location of the seat of detonation. LEONE'S vehicle, a 70 Ford van, was recovered 35' north of the seat, facing south in this alley. Extensive damage occurred to the van, notably to the right rear panels that were buckled from the explosion. Fragments of clothing were adhering to the right rear wheel in this same area. This damage and the clothing fragments indicate the vehicle was no more than several feet from the explosion seat and was either driven or blown back to its position against a garage wall that was also damaged from the van rear bumper. The van's automatic transmission was in the reverse position. The ignition key was in the off position.

The R/Ts search of the scene resulted in the recovery of the evidence listed in this report. This subject evidence and the damage incurred indicate that an Improvised Explosive Device consisting of high velocity type explosives i.e. dynamite, electric blasting cap, 9 volt battery, and mechanical alarm type clock, detonated at the above location causing injury to LEONE and the listed damage. LEONE'S injuries indicate that he was in close proximity to the seat of the explosion, apparently between the subject wall and van when same occurred.

The subject recovered evidence inventoried and held pending turnover to the F.B.I.. Searches of the victims van, and clothing recovered at the Swedish Covenant Hospital negative for any bomb particles at this writing, further examination by Lab. Search of surrounding building roofs negative. The victims antique shop located at 3627 W. Lawrence Ave., phone [redacted] was searched by Bomb & Arson Expl. Techs. [redacted] with negative results.

Further investigative reports submitted by Bomb & Arson Investigator [redacted] Crime Lab Techs [redacted] and [redacted] photographed the scene of this incident.

[redacted], Star Number [redacted], Technician, Chicago Police Department (CPD) Bomb and Arson Unit, provided Special Agent (SA) [redacted] with one bag containing seven sealed envelopes, numbered and described below, containing evidence collected by the Chicago Bomb Squad. This material was collected by Officers [redacted], Star Number [redacted], and [redacted], Star Number [redacted], the prior evening, January 4, 1980, at a parking lot located at 10052 South Avenue N, Chicago, Illinois.

1. One envelope containing white plastic bag with aluminum foil on the inside of the bag, wrapped with black, three/quarter inch plastic electrician's tape; also containing one end of a two-inch cartridge of dynamite, unknown manufacturer, with particles of material adhering to the wrapper.
2. One envelope containing a 9-volt Eveready alkaline power cell with two lengths of wire, one soldered to each of the snap terminals.
3. One bag containing numerous lengths of blue, yellow, orange and brown wires with black three/quarter inch vinyl electrician's tape adhering to the ends of the wires. The free ends of the wires were severed by the bomb technicians who disarmed the actual device. In addition, small pieces of aluminum foil and white plastic material are contained in Item 3.
4. One electric blasting cap marked "Explosive", described as two and one-half inches in length, silver in color with blue and light green/yellow wires.

5. One envelope containing one piece of black three/quarter inch vinyl electrician's tape and one Linden travel alarm clock, approximately two and one/quarter by two and one/quarter inches in diameter. The alarm clock was wrapped with black three/quarter inch vinyl electrician's tape over the crystal and around the back of the clock. The crystal had a hole in the face at the 3 o'clock position with one wire protruding into the hole, and just under the hole, there was a small piece of black vinyl electrician's tape on the face of the clock. Another wire was attached by solder to the back of the alarm clock with several additional wires wrapped in black tape and adhering to the alarm clock.

6. One envelope containing a small sample of material which had been taken out of the package. This material appears to be dynamite.

6a. One envelope containing approximately three pounds of what appears to be gelatin-type dynamite, which was destroyed according to an order issued by the court for safety purposes.

The above listed items were inventoried by the CPD on two receipts under Property Inventory Numbers 685782 and 685784, both signed for by SA [ ] to maintain custody in this matter. The items listed above will be forwarded to the Federal Bureau of Investigation Laboratory in Washington, D.C., for further analysis and tests, and then will be maintained in the Chicago Office for evidentiary purposes.

Pursuant to a court order issued by the Honorable Judge Frank J. McGarr, Northern District of Illinois, on January 8, 1980, that ordered the destruction of three pounds of dynamite of an unknown manufacturer, which was recovered from a device in the parking lot of 10052 Avenue N, Chicago, Illinois, on January 4, 1980, Special Agent (SA) [ ] carried out the order in the following manner:

SA [ ] accompanied by SAs [ ] and [ ], traveled to the General Dynamics Stone Quarry, Thornton, Illinois, where they met with [ ] and Lieutenant [ ] of the Chicago Police Department (CPD) Bomb and Arson Squad. SA [ ] and Officer [ ] retrieved the three pounds of dynamite from a storage magazine located in the quarry at Thornton, Illinois, and transported the dynamite to a remote location inside the quarry, where the material was charged with an electric blasting cap and then covered with a small amount of gravel and remotely detonated. During the time that the material was being prepared for detonation, SA [ ] video taped the proceedings and recorded the actual detonation of the material, as set forth in the instructions from the court. The site where the dynamite had been covered was then re-examined to make sure that all of the material completely exploded, and then the site was video taped for evidentiary purposes.

A minute sample, approximately one-half ounce of the explosive material, was kept from the original amount for evidentiary purposes, in order to be sent to the Laboratory for analysis and for defense purposes if necessary.

[redacted] crew member of the John J. Boland, furnished the following information:

On Friday evening, January 4, 1980, [redacted] left the John J. Boland to do some shopping. He returned to the vessel at approximately 9:30 PM, parking his automobile in the American Shipbuilding parking lot across the street from the Golden Shell Restaurant. [redacted] noted that while this property belongs to American Shipbuilding, many patrons of the Golden Shell Restaurant park their vehicles in this lot. [redacted] parked his automobile facing west off of Avenue N. There were automobiles parked on both sides of [redacted]'s vehicle, however, he could not recall what they were.

b6  
b7C

[redacted] returned to his automobile at approximately 9:50 PM. The parking space immediately to the south of [redacted]'s automobile which was previously taken up by an automobile was vacant and [redacted] observed what he thought was a ladies pocket book laying on the ground in this spot. It was placed in a position that it would have been located under the front passenger seat of the vehicle previously parked in this spot. [redacted] picked up the package to examine it and immediately observed a clock with hands on it. He believed it to be a bomb and his first thought was to get rid of it.

b6  
b7C

[redacted] carried the explosive device across the railroad tracks which were to the west of his automobile. He placed the explosive device next to the tracks. He did not want to leave the explosive device because he felt the individual who placed the device was possibly still in the area and would take the device and place it somewhere else. [redacted] saw an old sailor friend of his named [redacted] walking in the area and he had [redacted] sit in his, [redacted]'s, automobile and watch the spot where [redacted] placed the explosive device. [redacted] went to the Golden Shell Restaurant where he told the Chicago Policemen of the bomb he had found. The policemen verified that the package was a bomb and immediately cleared the area.

[redacted], Golden Shell Restaurant, 10063 South Avenue N, Chicago, was interviewed by representatives of the FBI, at which time she furnished the following information.

She stated that on Friday at approximately 9:45 PM she was made aware of a bomb device which was found outside her restaurant in a parking area across the street. [redacted] advised that she did not receive any notification prior to the recovery of the bombing device and she has no idea why anyone would target her establishment for a bombing. She stated that she has no problems with Yugoslav ethnic factions, either Serbian or Croatian.

[redacted] advised that during the evening of December 23, 1979, she received a phone call at her restaurant at approximately 10:00 PM from an unidentified male who spoke English with no accent. This person stated as follows: "We're going to bomb your place, one, two, three, or five." The caller hung up immediately after the above statement. [redacted] attributed this call to the fact that she had ejected approximately 25 persons from her restaurant one hour earlier. All these men were crew members on the freighter "John J. Boland" which had docked in the harbor across the street from her restaurant that day. She stated that she ejected them because they had become drunk and rowdy. However, [redacted] referred to the fact that the bomb device was recovered on January 5, 1980, and the anonymous caller gave a series of numbers which included the number five. [redacted] suggested there was a possible connection between the bomb device and the phone call on the 23rd.

Chicago, Illinois, was interviewed regarding any information she may be able to provide concerning an explosion which took place behind the Continental Club on January 5, 1980. [redacted]  
[redacted] then provided the following information:

b6  
b7C

On Saturday, January 5, 1980 at approximately 12:00 noon, she was sitting in the office of the Gordon Plumbing Company located at 5507 North Lincoln Avenue. She had heard a large explosion and went out the back of the plumbing office into the alley to investigate. Upon reaching the alley, she saw what appeared to be an elderly person covered by a pink blanket. At first she thought that it was her mother and she became extremely upset. Upon closer examination she determined that it was not her mother, but a white male who had been covered up with a blanket after apparently being injured in the explosion.

She had not seen this man before, but did notice that there was a van parked close by in the alley. She stated she had not seen the van in the alley before, but had heard from others who were gathered at the scene that the person who was lying on the ground was the owner of the van and that drivers from the Dy Dee-Wash Diaper Service located on North Lincoln Avenue had been talking to the driver of the van just prior to the explosion.

She continued that after seeing that the injured person was not her mother she began walking back to the rear entrance of the plumbing store. She was still in a somewhat dazed condition when she turned around to look again at the scene. A woman, whom she cannot remember nor does she believe she could identify, walked up to her and gave her a wad of bills which were bloodsoaked. The woman told her that this was from the injured man and that she should have it. She stated that she does not know who this woman was, but she took the money and then immediately turned it over to an officer of the Chicago Police Department who was on the scene. She stated that she did not count the money, but there appeared to contain ones, tens, and twenty-dollar bills.

[redacted] concluded by stating that her residence is located adjacent to the Continental Club and that she and her husband have frequented it on a number of occasions. There has been no real trouble at the club, but she did state that approximately one year ago there was a fire which was apparently the work of an arsonist on the stairwell of their apartment house. She does not know if the fire and the latest bombing incident are related.

[redacted], Schaumburg, Illinois, was interviewed at his place of employment, Dy Dee Wash, 5527 North Maplewood Avenue, where he is employed as a truck driver. After being advised of the identity of the interviewing Agent, [redacted] advised as follows:

At about noon on Saturday, January 5, 1980, [redacted] was moving one of the company's van trucks from the garage to a parking lot on the south side of the building; the entrance to which is just off Lincoln Avenue on Maplewood. To get to this parking lot, [redacted] drove the Dy Dee Wash van out the back of the building into an alley to go north up the alley then around the building to the parking lot on the south side of the building. As [redacted] was proceeding north up the alley, a black van was entering the alley in a southbound direction. As there was not room for both trucks to pass, the black van entering the alley had to stop and back up to allow [redacted] to clear the alley before the black van could enter. After [redacted] cleared the alley, he turned left on Maplewood and then turned left again into the company's parking lot. As soon as [redacted] parked the van and was turning off the ignition, he heard a loud blast which he initially thought came from his own truck, so that he got out and looked under it.

b6  
b7C

[redacted] then heard a commotion in the alley and looked into the alley, which is separated from the parking lot only by a chain link fence and saw the black van which had just entered the alley as he left, against a garage on the east side of the alley and also saw a man lying in the alley about 30 or 40 feet south of the van.

[redacted] advised he did not pay any attention to the driver of the black van when it backed up to let him out of the alley and had no idea if anyone else besides a driver was in the van, nor did he recognize the driver of the van.

b6  
b7C

[redacted] estimated that no more than one to one and a half minutes could have elapsed between the time the black van entered the alley and [redacted] heard the blast.

THIS IS NOTIFICATION OF AN EXPLOSIVE INCIDENT.

ON JANUARY 7, 1980, INFORMATION WAS OBTAINED THROUGH THE LOCAL NEWS MEDIA THAT AN EXPLOSIVE DEVICE HAD BEEN RECOVERED ON JANUARY 4, 1980, AT APPROXIMATELY 10:00 P.M., AT 10052 SOUTH AVENUE "N", CHICAGO, ILLINOIS. THIS IS A PARKING LOT USED BY PATRONS OF THE GOLDEN SHELL RESTAURANT, 10063 SOUTH AVENUE "N". CHICAGO, ILLINOIS.

THIS FUNCTIONING EXPLOSIVE DEVICE WAS DISMANTLED BY CHICAGO, ILLINOIS POLICE DEPARTMENT BOMB AND ARSON EXPLOSIVE TECHNICIANS. THERE WAS NO CRIME SCENE SEARCH BY ATF.

THE DEVICE IS DESCRIBED AS TWO CARTRIDGES OF DYNAMITE (WAXED PAPER WRAPPERS REMOVED), ONE 9 VOLT BATTERY, ONE ELECTRICAL BLASTING CAP, AND ONE MECHANICAL CLOCK (BACK CASING REMOVED).

RE: 3/18/81 1043 UNCLAS

THE ITEMS WERE WRAPPED IN ALUMINUM AND WHITE PLASTIC AND  
SECURED WITH BLACK ELECTRICAL TAPE. THE DEVICE FORMED A  
RECTANGULAR PACKAGE MEASURING 2" X 4" X 6".

THE EVIDENCE WAS RECOVERED BY THE CHICAGO POLICE BOMB AND  
ARSON UNIT AND IS IN THEIR CUSTODY.

THERE WERE NO INJURIES OR DEATHS INVOLVED IN THIS INCIDENT  
AND THERE WAS NO PROPERTY DAMAGE.

NO INVESTIGATION IS BEING CONDUCTED BY ATF, HOWEVER,  
IT IS BEING INVESTIGATED BY THE FBI AS IT INVOLVES A MATTER  
UNDER THEIR JURISDICTION. CONTACT MADE WITH SPECIAL AGENT  
[REDACTED], FBI, CHICAGO, ILLINOIS. OUR ASSISTANCE IN THIS INVESTI-  
GATION WAS OFFERED TO S/A DEANS AND WAS REFUSED.

Result of examination:

GENERAL INFORMATION

The enclosed photographs pictorially describe many of  
the submitted specimens; therefore, complete verbal descriptions  
will not be made of each submitted item.

### PHOTOGRAPHS

Enclosed are two sets of photographs, thirteen photographs per set, depicting the submitted specimens in this matter.

### FINGERPRINTS

You will be separately advised concerning the results of the requested latent fingerprint examinations.

### EXPLOSIVE DEVICE

The homemade bomb or improvised explosive device (I.E.D.) in this case consisted of a high explosive main charge wrapped with aluminum foil and white plastic tape. A time delay firing device consisting of a battery, wire, timing mechanism and an electric blasting cap was employed in the I.E.D. The device was designed to function when the timing mechanism completed an electrical circuit between the battery and the electric blasting cap.

A detailed description of the individual components of the I.E.D. follows:

#### Main Charge

Present in specimens Q1 and Q9 are residues of a material which visually appears to be dynamite. Instrumental examinations of specimens Q1 and Q9 determined formulations of ingredients consistent with many dynamites.

Also present in specimen Q1 is the end of a dynamite cartridge which measures approximately 2" in diameter. The cartridge wrapper is a manila or buff colored paper. No manufacturer could be determined from an examination of the paper wrapper.

#### Blasting Cap

Present in specimen Q8 is an electric blasting cap with an aluminum shell and blue and yellow 24 gauge leg wires. A three line warning statement printed in black ink reads:

"DANGER  
EXPLOSIVE  
EXPLOSIF"

The numeral "1" is stamped on the bottom of the cap. A split, clear rubber plug is crimped three times in the end of the shell. This cap is like a "Canadian Industries Limited (C.I.L.) #1 Period Long Delay Electric Blasting Cap." Such a cap is a #8 strength cap. Specimen Q8 blasting cap was a "live" or functioning cap when received in the FBI Laboratory. It was inerted in the Explosives Unit.

#### Container

As shown in enclosed photographs, the dynamite in this I.E.D. appears to have been wrapped in aluminum foil and then covered with a white plastic tape, approximately 2" wide. Several lengths of 3/4" wide black plastic electrical tape were then wrapped around the white tape.

#### Timing Mechanism

Specimen Q4 contains part of a "LINDEN" brand spring driven model alarm clock, marketed by the Cuckoo Clock Mfg. Co., Inc., 40 West 24th Street, New York, New York 10010. Alterations to the clock indicate a delay of less than 12 hours, and if sufficient energy had been supplied to the mainspring, any electrical circuit to which it may have been appropriately connected in series would have been completed (closed).

As shown in enclosed photographs, a wire was attached to the back of the case by solder and a second wire was placed in a hole in the clock crystal.

#### Battery

Present in specimen Q2 is an "EVEREADY 9-VOLT Alkaline Powercell" battery, NEDA 1604 A, number 522. "AU 1" is stamped on the bottom of the battery. Two lengths of copper wire are soldered to the top terminals.

#### Wire

As shown in enclosed photographs, specimen Q3 contains numerous wires with different colored insulation. Lengths of blue and yellow single strand tinned copper 24 gauge wire are present in specimen Q3. This wire is like the leg wires attached to the specimen Q8 C.I.L. electric blasting cap. This type of wire is also present

on the specimen Q4 clock.

Also present is a length of brown and white striped 22 gauge copper wire soldered to a length of orange and white striped 22 gauge copper wire. A length of orange and black striped 22 gauge copper wire is also present. Specimen Q4 clock, likewise had a length of brown and black striped 22 gauge copper wire attached. A grey plastic "wire nut" with the notation on top of "IDEAL 118, 18, 22" was also located in the Q3 specimens.

Wires in specimens Q2, Q3, Q4 and Q8 bear toolmarks of the type produced by a tool or tools employing a pinching or shearing action. The toolmarks in some of the wires from these specimens bear extremely limited marks of possible value for identification with the tool or tools which cut them.

#### Tape

3/4" wide black plastic electrical tape is present in specimens Q1, Q3 and Q4. Numerous tape ends suitable for end match comparisons are present in these specimens. Also present in specimen Q4 are two pieces of black plastic tape, different from the others, which appear to have originally been joined together to form a single piece approximately 1 1/2" wide.

Numerous pieces of 2" wide white plastic tape have previously been mentioned in specimen Q1. Some of these tape ends are of value for end match comparisons.

#### DISPOSITION OF SPECIMENS

The above listed specimens will be retained in the Laboratory pending additional and intercomparison examinations.

## Result of examination:

GENERAL INFORMATION

You should refer to Laboratory report dated 3/26/80, captioned "NEWBOM - EID;" "UNSUB; BOMBING OF GOLDEN SHOE RESTAURANT, 10052 SOUTH AVENUE NORTH, CHICAGO, ILLINOIS," for the results of previous examinations in this matter. Those specimens were designated Q1 through Q4 and Q8 and Q7.

PHOTOGRAPHS

Enclosed are two sets of photographs, four photographs per set, depicting some of the submitted specimens.

#### TAPE

Several fragments of black plastic electrical tape, approximately 1" in width were present on specimen Q5. Some of the tape ends are of possible end match value.

#### MISCELLANEOUS

Additional examinations are being conducted on the Q6 debris and Q7 clothing. You will be advised of these results at a later date. Additionally, since no main charge residue has been located on the submitted items, additional examinations will be conducted in an effort to effect an identification.

#### DISPOSITION OF SPECIMENS

The submitted specimens will be retained in the Laboratory pending additional and comparison examinations.

## FINGERPRINTS

You will be separately advised concerning the results of the requested latent fingerprint examinations.

## EXPLOSIVE DEVICE

The homemade bomb or improvised explosive device (I.E.D.) in this case consisted of at least an explosive charge and a time delay firing circuit with a battery, wire and possibly an electric blasting cap.

## TIMING MECHANISM

Specimen Q5 contains portions of a model 42014 spring-driver travel alarm clock manufactured by Westclox, Div. of General Time.

## BATTERY

Present in specimen Q5 is an EVEREADY 9-VOLT ALKALINE POWER CELL, No. 522 NEDA 1604A. "U01" is stamped on the bottom of the battery. Both battery terminals contain amounts of solder. A small length of grey single strand copper wire, outside diameter approximately .025" is soldered to the negative terminal of the battery.

## WIRE

A length of 24 gauge tinned-copper single strand yellow wire is present in specimen Q5. Instrumental examinations of the yellow insulation from this wire was compared with the yellow and blue insulation of specimen Q8 wire from the "Canadian Industries Limited" blasting cap from the "Golden Show" bombing and found to be similar.

Also present in specimen Q5 are three pieces of green single strand copper wire and a piece of grey single strand copper wire, all with a diameter of approximately .025".

The wires in specimen Q5 lack sufficient characteristics to determine the type of tool or tools which may have been used to cut them. Also, the wires of specimen Q5 lack microscopic marks of value for identification purposes.

Palm prints are not available in our Identification Division files for Badurina or the other individuals whose names appear on the attached list.

The latent prints were compared with the comparable areas of the previously reported unidentified latent prints in Bufile #174-8189, latent case #B-65556, New York file #185-789 (P), San Francisco file #185-212; Bufile #9-64232, latent case #B-69088, New Rochelle file #9-7901; Bufile #174-8509, latent case #B-81589, Brooklyn-Queens file #174-2946A, but no identification was effected.

To date, no latent prints have been reported in Bufile #174-8341, latent case #B-73949, New Rochelle file #174-2420.

Specimens submitted under Chicago Division case entitled "NEWBOM," concerning the 1-4-80 bombing at the Golden Show Restaurant and the 1-5-80 bombing at the Club Continental, are being handled in the Laboratory Division and have not been received in our Latent Fingerprint Section.

The specimens are enclosed.

Specimens received

Result of examination:

GENERAL INFORMATION

You should refer to Laboratory report dated 3/26/80, captioned "NEWBOM-EID"; "UNSUB; BOMBING AT GOLDEN SHELL RESTAURANT, 10052 SOUTH AVENUE, N, CHICAGO, ILLINOIS", and to Laboratory report dated 4/3/80, captioned "NEWBOM-EID", "UNSUB; BOMBING AT CLUB CONTINENTAL 5515 NORTH LINCOLN AVE., CHICAGO, ILLINOIS, 1/5/80, EID", for a complete list of submitted specimens and the previously reported results of Laboratory examinations.

BOMBING AT GOLDEN SHELL RESTAURANT

One brown and white dog hair and a number of fibers of various types and colors were removed from the Q1 tape. This hair and the fibers have been mounted on glass microscope slides for possible future comparison purposes.

BOMBING AT CLUB CONTINENTAL

MAIN CHARGE

Additional instrumental examinations of specimens Q5 and Q6 failed to disclose the presence of identifiable explosive residues.

## INTERCOMPARISONS

### SOLDER

Solder from specimen Q5 (CLUB CONTINENTAL BOMBING 00129021) and solder from specimen Q2 (GOLDEN SHELL RESTAURANT BOMBING 00122004) were analyzed by neutron activation analysis for their elemental compositions.

The Q2 and Q5 solder specimens contain approximately 55% to 60% tin and have the same general elemental composition. However, minor compositional differences preclude a closer association. Minor differences in composition, like those noted above, are not uncommon within a single roll of solder.

The compositions of the solder from Q2 and Q5 differ substantially from solders previously examined in CROMUR bombing cases.

### WIRE

As previously reported, instrumental examinations of the yellow insulation from the 24 gauge wire in specimen Q5 (CLUB CONTINENTAL) was compared with the yellow and blue insulation of specimen Q8 wire from the "Canadian Industries Limited" blasting cap from the "GOLDEN SHELL BOMBING" and found to be similar.

### BATTERIES

It is noted that the improvised explosive devices (IED's) in both the "GOLDEN SHELL" and "CLUB CONTINENTAL" bombings both utilized an EVEREADY 9-VOLT ALKALINE POWER CELL, No. 522 NEDA 1604A. The codes on the bottom of the batteries are different from each other, however.

### TAPE

Tape fragment from specimen Q5 (CLUB CONTINENTAL) was compared with tape from specimen Q4 (GOLDEN SHELL) and found to have unique and similar surface characteristics which would suggest that they could have originally been part of the same roll of tape. These tape fragments were also compared with previously examined "CROMUR" and "CROBUR" tape fragments and found to be dissimilar.

### CONCLUSION

Based upon the above comparison examinations and the time and locations of intended targets, it is concluded that the IED's placed at the "GOLDEN SHELL RESTAURANT" and the "CLUB CONTINENTAL" were constructed by the same individual or different individuals having access to the same plans and materials.

### DISPOSITION OF SPECIMENS

The submitted specimens will be returned to your office under separate cover by registered mail.
